Outline di progetto

Titolo	Welcoming Neighbourhoods		
Sottotitolo	Sustainable Migration in North and West African Cities		
Acronimo	WelCit		
Autore	Solcà Paola	Data	29.05.2018
Tipologia di progetto	Progetto competitivo		
Confidenziale	Sì (Il ricevente dichiara di trattare in modo confidenziale il contenuto dell'outline, diffondendone a terzi i contenuti solamente previo autorizzazione dell'autore)		
Descrizione	<p>The interdisciplinary project "Welcoming Neighbourhoods: Sustainable Migration in North and West African Cities" seeks to understand the dynamics of inclusion and exclusion dynamics among mobile people (internal and external migrants, circular migrants, commuters) in specific neighbourhoods characterised by diversity (in terms of the life histories, and particularly the mobility experiences, of the people who live there) and their contribution to social, economic, and cultural innovation. With our focus on innovation, we wish to contribute to several of the 2030 Agenda for Sustainable Development's goals, in particular Goal 11 (inclusive, safe, resilient and, sustainable cities), Goal 3 (healthy lives and wellbeing), Goal 16 (peace, justice, and strong institutions), Goal 12 (sustainable consumption and production), and Goals 8 and 9 (economic performance and work). WelCit includes the organisation of five workshops, four of them in selected North and West African cities (Addis Ababa, Fez, Dakar, and Abidjan). We plan to use innovative methods to improve workshops outcomes, in particular the inclusion of site visits to innovative projects in specific neighbourhoods.</p>		

Unità SUPSI interessate, competenze richieste

Centro competenze SUPSI cooperazione e sviluppo	competenze nell'ambito della cooperazione allo sviluppo
Centro documentazione e ricerca sulle migrazioni	competenze nell'ambito dei fenomeni migratori

Partner interessati, competenze richieste

CH (non Ticino)	Università di Ginevra; HES-SO Ginevra; HSLU Lucerna
Internazionale	Université Amadou Mahtar Mobow (UAM) and Université Cheikh Anta Diop (UCAD in Dakar); Université Gaston Berger (UGB) in Saint-Louis; Université Sidi Mohamed Ben Abdallah (USMBA) in Fez; Université Peleforo Gon Coulibaly (UPGC) in Korhogo and the Centre Suisse de Recherches Scientifiques en Côte d'Ivoire (CSRS) in Abidjan

Finanziamenti prospettati

Swissuniversities	COFER nell'ambito della 2a call SUDAC
-------------------	---------------------------------------

Discipline di ricerca

L800 - Development studies

L310 - Applied sociology

Interesse/valore strategico per la SUPSI (perchè la SUPSI è interessata al progetto?)

Asse 6 - Sistemi sociali e salute pubblica	legame tra migrazioni e cooperazione allo sviluppo
--	--

Aspetti di innovazioni tecno-scientifiche di prodotto e di processo

Incremento conoscenza scientifica	WeICit includes four Swiss academic institutions from three linguistic regions that are committed to research, education, and innovation in the areas relevant areas to the proposal. The WeICit partners are core members of a wide range of national and international networks and consortia working on mobility, migration, urban issues, and sustainability in both research and education.
-----------------------------------	--

Ricadute generali, benefici economici e sociali (qual è l'impatto del progetto?)

Ricadute generali	The results of the WSs and research will enable us to point out best practices of diverse neighbourhoods in dealing with social, cultural, and economic challenges, which factors are conducive to social inclusion and exclusion and which ones hinder it, and what parameters encourage innovation. In particular, the results will enable us to understand how residents perceive everyday reality in their neighbourhood and how social and political learning can be made possible. Furthermore, the workshops and research will make it possible to better understand the phenomena of migration and urbanisation and describe the functions of such highly diverse neighbourhoods.
