Tax issues for US expats: US and Swiss perspective

Dates & Times

Tuesday
November 10, 2020
17.15-18.30

Ciclo
conferenze

Webinar

Switzerland, and as well as Lugano, has always represented an attractive destination for US expats thanks to the international environment and the presence of several American schools and of multinational companies. Individuals with ties to the U.S. have to analyze carefully the Swiss and U.S. tax impact of their US 'luggage' (e.g. real property, RSU, stock options,..) as well as any persistent US tax obligations. The speakers will present the main issues with some practical cases, helping clients and operators to put the pieces of this complicated puzzle together.
