

SUPSI

Institutional Philosophy: Vision, mission, values and guiding principles

VISION

Multidisciplinary,
innovative and
Latin-culture
University of
Applied Sciences
and Arts, leader in
network-creation.

Vision

We aim to be a vocational, multidisciplinary, innovative and Latin-culture university, prominent in Switzerland, a network-creation leader, both in Switzerland and internationally, in the academic, business and political-institutional contexts.

MISSION

Training professional
workers, boosting
competitive capacity
and improve individual
quality of life.

Mission

The majority of our students come from the local territory, and, on completion of their studies, they possess professional skills, are highly qualified and immediately operational, able to move around regional, national and international contexts with great flexibility. Our research projects provide solutions that are innovative and rapidly applicable, capable of making businesses, organizations and institutions more competitive, and improving individual quality of life.

VALUES

Strength
Originality
Multidisciplinary
Partnership
Innovation
Territoriality
Internationality

GUIDING PRINCIPLES

Integrity
