**EXAMPLE OF REPORT** (all purely invented):

**Luca Bresolin, a student of Business Economics who stayed in Madrid at the university**

**Comillas, Spain, Spring semester 2015/2016:**

"Madrid is a beautiful city as so was my mobility experience! Thanks to the SEMP program I had the opportunity to expand my Language skills, my scholastic and cultural knowledge. Leaving was a tough choice since I never had the opportunity to travel alone earlier, but thanks to the support of the International Office and my companions on sit, I could set in a very short time. I recommend to everyone to do this experience and leave!!
